The above paper should be modified as follows:

In the Participants subsection of the METHODS section (page 255) the authors described: “this university adopted a closed-management strategy at the beginning of the semester (from July 1, 2020 to September 1, 2020) to halt the spread of the pandemic.”

The time interval of the university closed-management should be revised as “from July 1, 2020 to October 1, 2020”.

We apologize for the mistake.
