

## Corrigendum

---

In the article entitled ‘Neurogenic Contraction Induced by the Antiarrhythmic Compound, AVE 0118, in Rat Small Mesenteric Arteries’ published in *Basic & Clinical Pharmacology & Toxicology* 2014;**115**(4):315–320. doi: 10.1111/bcpt.12225. Epub 2014 Apr 3, the affiliation list was as follows for these two authors:

Julius Gy. Papp and András Varró

- (1) Department of Pharmacology & Pharmacotherapy, University of Szeged, Szeged, Hungary
- (2) Division of Cardiovascular Pharmacology, Hungarian Academy of Sciences, Szeged, Hungary

In 2014, the Hungarian Academy of Sciences made the decision to change the name of the research groups sponsored by the Academy. Therefore, from 2014, the official name of the ‘Division of Cardiovascular Pharmacology, Hungarian Academy of Sciences’ was changed to ‘MTA-SZTE Research Group for Cardiovascular Pharmacology, Hungarian Academy of Sciences’.

Therefore, the second affiliation should be changed to

- (2) MTA-SZTE Research Group for Cardiovascular Pharmacology, Hungarian Academy of Sciences.

On behalf of the authors, we apologize for this error.
