

DEAR GÁBOR,

DOI: 10.18135/PG70.2024.27

with the occasion of your birthday I finally succeeded to rescue the data from my old computer, an operation I postponed for years ! Looking for pictures from our Review meetings in Bursa and Istanbul, I realized there are very few testimonies of those days. I still remember the crossing by boat from Istanbul to Bursa. At least a picture of the boat survived. The fourth photo is from the Elbphilarmonie in Hamburg already seven years ago. I hope in the near future I will have the opportunity to invite you to the Center for Eastern European History in Marburg, where I am working now. Thank you for all your support whenever I intended to organise something..

Happy birthday and all best wishes for the years to come.

Cristina
